Foods and feeding habits of the dugong, *Dugong dugong* Erxleben, in northern Queensland, Australia.

**North American Eocene sea cows (Mammalia:Sirenia) (Book, 1982) [sdk.mavlink.io]**

Public Access images may be redistributed, on condition all original credits are kept intact. Supposedly unique features of the desmostylian tibia are also found in other mammals. Foods and feeding habits of wild and captive Sirenia.

**[PDF] The most northerly record of the sirenian *Protosiren* and the possible polyphyletic evolution of manatees and dugongs**

Thesis, James Cook University of North Queensland. It was later declared a nomen dubium by Uhen 2013, but Gingerich and Zouhri in press reassigned it to the genus.

**Basilosaurus**

Amazonian Manatee live only in fresh water and Dugongs are found in the Indian and Pacific oceans. Here we describe and compare the basicranial morphology of mesonychian ungulates.

**Fossil Sea Cow Remains (Mammalia: Sirenia) on Paving Stones in the City of Girona (Catalonia, Spain)**

In: Reproductive Biology of South American Vertebrates, W. Re-illustrated by Sharon Mooney, 2006.

**Middle to Late Eocene Basilosaurines and Dorudontines**

Uhen *Dorudon atrox* is a medium-sized archaeocete cetacean, around five meters in length from snout to tail in life, and is known from the Birket Qarun and Gehannam Formations of Fayum, Egypt.
