Travel Restrictions Fact Sheet

The impact of COVID-19 on travel and tourism in the United States The was and continues to be severely affected by the coronavirus COVID-19 pandemic.

Information for Travelers Returning to the United States

This guidance may be updated as additional information about people who have recovered from COVID-19 becomes available. If a passenger has tested positive for COVID-19, and then tests negative, can that passenger travel? Check your for information about local quarantine requirements. Individuals should stay in their quarantine location for the full 10 days and avoid physically interacting with others.

Coronavirus Travel Advisories and Bans To Know When Traveling

International Air Passenger and Freight Statistics report has been developed to provide the public with additional access to international aviation data. If new symptoms develop after travel, people should follow instructions for what to do if you're sick. Upon returning home, stay home if possible and monitor your health for 14 days.

Tourism & Visit

While there are bound to be isolated examples of tourists from any country behaving inappropriately on foreign soil, in 2006, the Chinese government launched a nationwide advertising campaign to educate Chinese tourists on suitable behavior when abroad. At this time, individuals who have been vaccinated against COVID-19 should continue to follow the State's travel advisory. The outbreak of a new coronavirus originating in the Chinese city of Wuhan, for example, is likely to significantly tourism around the world and especially in China.

Coronavirus Travel Advisories and Bans To Know When Traveling

The United States in international travel and tourism exports and ranks in terms of total visitation. Passengers booking this flight will have to book onward connections from Kuala Lumpur to their final destination and will have to show proof to the airline before being allowed to board the flight to Kuala Lumpur.

Tourism & Visit

Just as in other world regions, ecotourism and other environmentally friendly concepts are rising in the United States. Travelers are required to get tested within the 3 days before their flight to the U.

Requirement for Proof of Negative COVID

Passengers are only required to retain a paper or electronic copy of their negative test result or documentation of recovery for the entirety of their itinerary. It can help reduce your risk of unknowingly spreading the virus to your friends, family, and larger community.
