The Canadian Charter of Rights and Freedoms: An Integral Part of our Constitution

It is a bit difficult to do otherwise because there are so many contexts out of which one can take things. One case in which direct recognition and enforcement of a convention was sought is *Madzimbamuto v.*

The Constitution Act, 1982

Some of the resistance to the Charter was based on our British heritage. They arise out of three References made, respectively, to the Manitoba Court of Appeal, to the Newfoundland Court of Appeal and to the Quebec Court of Appeal by the respective governments of the three provinces. I want to give them that support and I urgently ask my colleagues of the Progressive Conservative Party to set aside their partisan views and join with the New Democratic Party and Liberal members in giving their unconditional support to this proposal, so that we may go ahead with the constitutional reform.

Rule of Law

These are democratic rights sections 3—5 of the Charter , mobility rights section 6 , language rights sections 16—22 , minority language education rights section 23 , and the guaranteed equality of men and women section 28. Nothing in sections 16 to 20 abrogates or derogates from any right, privilege or obligation with respect to the English and French languages, or either of them, that exists or is continued by virtue of any other provision of the Constitution of Canada.
