Economic Growth

Wildlife tourism can be recognized in many African countries, including Ethiopia: Safari tourism, ecotourism and recreational tourism. Failure to conserve protected areas will have dire consequences for biodiversity. Proximity to animals particularly endemic large animals are an enormously best mechanism whereby tourists can excite by them with nature.

Wildlife Resources of Ethiopia: Opportunities, Challenges and Future Directions: From Ecotourism Perspective: A Review Paper

Over time, the international community has become aware of the fact that poaching is the most immediate and direct threat to wildlife in Africa making its upward trend a cause of serious concern.

Coexistence between human and wildlife: the nature, causes and mitigations of human wildlife conflict around Bale Mountains National Park, Southeast Ethiopia

It arises when growing human populations needs overlap with protected areas and results scrambling for resource. The major components of habitat disturbance in the study area were settlement in and around the national park, over grazing by livestock, frequent fire and bush encroachment, tree cutting for charcoal, sale and construction of huts. Conflict of interest between people and baboons, crop raiding in Uganda.

Economic Growth

This genetic data will allow researchers and to determine if the sitatunga population is closed, or if immigration is taking place along with the average number of migrants per generation. North East African Studies, 8, 7-25.

Investigating the Uganda Sitatunga's Habitat

There are many human wildlife conflicts in Ethiopian protected areas which need solutions, but there is no enough empirical study done on issues

pertaining to human wildlife conflict. According to Hill et al.

Economy of Uganda

International Thomson Business Press, London. The ecotourism includes journeys for bird viewing, sport fishermen, speleologists those who enjoy exploring caves and their wildlife , botanists and other ecologists, who interested on wildlife perspectives.
