Why experiential learning often isn't as good as classroom learning (opinion)

Completed work sheets were turned in to the instructor. Impact of Service Learning on Students An analysis of research conducted by Eyler, Giles, Stenson, and Gray during the 1990s identified more than 100 higher education studies completed during this period that provide considerable support for the power of service learning. Participation in service learning increases the sense of social responsibility felt by students and their commitment to community service.
