## Officer Training Program

The figure is a scattered plot and represents the graduation rate for the OTP cadets, for 6 years, from 2011 to 2016, inclusive. The College can do this only in its immediate area.

## Officer Training Program

Length of Mandatory Service OTP graduates are required to provide four years of mandatory service upon graduating.

## Canadian Coast Guard Search and Rescue and Canadian Coast Guard Auxiliary Evaluation Report

The Coast Guard has sole responsibility for maritime communications and vessel traffic services in Canadian waters, and it looks to the College to provide related training. As mentioned previously, it is anticipated that improvements will be evident going forward.

## Marine Communications and Traffic Services training program

According to administrative data, the number of OTP applicants as well as the number of admitted OTP cadets decreased between 2011 and 2015.

## Canadian Coast Guard

As there is no standard definition of what constitutes administrative costs and perhaps other operating costs, the College needs to ensure any comparison is based on exactly the same item. The College needs to modernize its learning platform and technology in order to be able to implement alternative course delivery models, and to be attractive to the current younger generation of learners.

## Canadian Coast Guard

This will also assist programs during the identification and development of Coast Guard operational competencies. Integrated Technical Services has a need for specialized training as the Coast Guard deals heavily in communications. Qualitative data indicates that the structure of the MCTS

program may need to be reviewed.

### **Become a fishery officer**

This also fosters a network of contacts to call on in the future.
