**to strive to be the best priests they can be**

Broader research would have been more convincing, but understandably could not be done in a short time with limited resources. Neil Malamuth and Emily Impett of University of California at Los Angeles note that exposure to sexually explicit material can affect fantasies, attitudes, perceptions of norms and behavior.

## What's Wrong With Our Seminaries? An Insider Speaks Out

Pastores Dabo Vobis Post-Synodal Apostolic Exhortation of 1990 enumerates the qualities a Priest should have: a. The tendency of seminary confessors is toward leniency and tolerance of behaviors including mutual masturbation that they tend to judge as phases of development toward psychosexual maturity. One notorious example is the case of a young man who may have the most prestigious and well-rounded background of any candidate in the country.

## The Screening, Protection, and Crisis Education of Seminarians

Heterodoxy and Homosexuality More than any other organization, the Church has to rely on unity for success. Father Young seems to be a victim of circumstances of his growing years. Deep spiritual trauma wounds are difficult to detect and fester over many years until dysfunction erupts, usually in relationships.

## The Screening, Protection, and Crisis Education of Seminarians

One has fully recovered to University and the second is under continued supervision from the HSE as high risk to attempted suicide and danger to others.
