Court Orders and Updates During COVID

In Quebec, the language of the majority is French. One has to wonder how often an employer will be inclined to cite this expansive language to terminate or restrict from customer contact, on image grounds, an employee wearing a yarmulke, a veil, or the mark on the forehead that denotes Ash Wednesday for many Catholics. We have to educate ourselves and learn how to talk about them with those around us.

Caseflow Management Resource Guide

In an order dated September 21, 2006, the court recognized the parties' efforts and achievements in the case in establishing a unitary system of public higher education in Tennessee, and approved the parties' joint motion for a final order of dismissal and terminated this longstanding litigation. In addition, the agreement will require all local educational agencies referring EL students to AEDY to establish an EL service plan to ensure EL students are provided appropriate services.

Magistrates' court

The existence of the collectively bargained system for determining weekend shifts should not result in the denial of accommodation if a voluntary swap can be arranged by the employee without violating the system or otherwise posing an undue hardship. On July 28, 2020, the United States executed a with the University, extending the deadlines in the original settlement agreement.

Bell County, TX

For example, universities or public academic institutions are regularly taken to court over claimed irregularities in the organisation of exams.

Magistrates' court

In February, 2015, the United States and the district entered into a to resolve the district's noncompliance with federal law. The district also must certify its compliance with the terms of the order to the United States for a four-year period. Title IX and Title IV both prohibit discrimination on

the basis of sex in education programs.
