## Clinical, technological, and economic issues associated with developing new lung surfactant therapeutics

Obviously, this figure only considers costs for consumable and reagents, but when even total costs are included in the calculation i. Integrating electronic systems that automatically send updated information electronically every time a test is ordered would increase efficiency. These safeguards add protection for records that are shared electronically and give patients some important rights to monitor their medical records and receive notification for loss and unauthorized acquisition of health information.

## Editorial: Sandia labs pumps up NM's economy and employment » Albuquerque Journal

Whether new technologies 15 As noted in footnote 6, when considering the tasks conducted by individuals who do not have technical skills, it is important to note that many states have licensure laws that preclude the conduct of certain testing procedures by nontechnical staff. Even diabetes mellitus, one of the most common human disorders, cannot be diagnosed without measurement of fasting plasma glucose or glycated hemoglobin HbA1c. Some experts foresee a time when patients will be able to view, interpret, and add important information to their medical records through Internet-linked, hand-held devices designed for home use.

## The Journal of Economic Perspectives on JSTOR

Clin Lab Manage Rev 12, No. Clin Chem Lab Med 2015;53:995-1004.

## Views of Rural US Adults About Health and Economic Concerns

Two potential opportunities are emphasized: 1 aerosolized lung surfactants to treat NRDS infants, and 2 synthetic lung surfactants for acute respiratory distress syndrome ARDS patients. The segmentation also reveals disease areas where incentives are not aligned to drive investment, despite technical feasibility and clinical need; among them are antipsychotics or anticoagulants. An illustrative example is the use and misuse of cancer cell lines.

## Immunity, Inflammation, and Disease Laboratory

Drafting of the manuscript: Findling, Blendon.
