Tornadoes and severe winds kill at least 20 in the South

A flash flood watch was in effect for areas burned by last year's blazes the blackened ground can't absorb moisture and the rain could bring mud, boulders, trees and other debris flowing into recovering areas. Millions of residents remained under high-wind warnings late Monday, but no other tornadoes were reported.

Major storm pounding Northern California heads south

Winter Storm Setup A powerful southward plunge of the jet stream will pivot out of the southern Rockies across the South this weekend. The death toll from the storms so far is staggering: Eleven people were killed in Mississippi, nine were found dead in South Carolina, and six more died in northwest Georgia.

The Weather Channel

It moved westward over an area of warm waters while the circulation became better defined. He was pronounced dead at the scene, about a hundred yards from his vehicle, according to Pittsburg County Sheriff's Office.

Deep South winter storm to miss us to the south Monday

Hurricane season lasts until Nov. Even though the upcoming event may not have the coverage or perhaps the intensity of the Easter weekend outbreak, people are encouraged to take all severe weather events seriously and have a plan of action in place prior to the arrival of a severe thunderstorm. More than 60,000 customers were without power across the two states.

Deep South winter storm to miss us to the south Monday

Farther to the west, across interior areas of the Northeast, the coastal storm may struggle to produce much in the way of snow. Monday, Oconee County Emergency Management Director Scott Krein said. Despite these recent additions of pump tracks and skills areas, Northwest and centrally located residents still must travel far to practice and build bike skills or ride a pump track.

Tropical Storm Eta hits south Florida, causing flooding

Strong , which disrupts the formation of cyclones, as well as a lack of weather disturbances favorable for development in the South , make any strong tropical system extremely rare, and in 2004 is the only recorded South in history. Forecast Timing Uri will first bring more and the Great Basin Saturday, then in the Rockies and Four Corners later Saturday into Sunday. Destructive winds were reported across the East on Monday, the Weather Channel said, a day after at least 40 reported tornadoes pounded several states.
