Practice skills from 6 family therapy models. b. Application of skills to diverse populations and practice settings.
EP 2.1.4 Engage diversity and difference in practice Social workers understand how diversity (diversification) shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the interconnectedness of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and discrimination as well as privilege, power, and inclusion. Social workers...

Required Readings and Videos

The most important part of the assessment process is creating a rapport with your client and other interviewees that would encourage them to divulge information honestly. You are encouraged to use this list to communicate with your classmates and instructor.

Social Work Practice with Families and Children on JSTOR

Most workers focused on social justice in their daily work e. Handon, BSW, MSA, LSW Many professionals enter into the field of social work to help others grow and improve their life circumstances.

Family

In instances when dual or multiple relationships are unavoidable, social workers should take steps to protect clients and are responsible for setting clear, appropriate, and culturally sensitive boundaries. Office is Room 409 on the fourth floor of the Social Work Building. This therapy is important for working through painful feelings and behaviors that are not desired ultimately.

Problems Faced by Social Workers

Empowerment could include being informed of their rights, having validation of their lived experiences of oppression, and preventing further unmet needs. An Introduction to Group Work Practice.
