## Pat the Cat by Edith Kunhardt

Buddy, my life is yours. Petting in the wrong spot or using too much force or speed can agitate some cats, causing them to bite or scratch.

### How to Pet a Cat: 15 Steps (with Pictures)

I wouldn't be here if it weren't for you. This guy tried to work my head for hours the day before. They'll wrap their claws around your hand or arm, bite it, and scratch at it vigorously with their front and back paws.

## Pat Spirito

If you're not paying attention, the sign to stop may come in the form of a soft, inhibited bite or scratch. Cats often scratch deep when they don't intend to if their claws get stuck.

Experts recommend letting it happen on the cat's terms: seek permission to touch them, and let the cat have control over the interaction.

## Pat Spirito

Not one of my favorites, but my daughter is just starting to warm up to it, which leaves me with the dilemma. Spirito was a money-maker, but he was also a whiner and complainer. X Research source Others, however, have a habit of suddenly snapping their teeth at your hand when they've had enough.

## Pat the Cat by Edith Kunhardt

Understand how your cat communicates. She has worked at the same animal clinic in her hometown for over 20 years.
