## The family, a dynamic interpretation (1938 edition)

Within the boundaries of the system, patterns develop as certain family member's behavior is caused by and causes other family member's behaviors in predictable ways. Each person in a family unit has their own perspective about issues that are causing conflict in a family and each perspective is seen by family therapists as being both legitimate and flawed.

## Families: Single Parenting and Today's Family

Yet, several studies have reported remarkable stability in the negative associations between parental separation and educational attainment, psychological well-being, and own family dissolution risk Albertini and Garriga ; Biblarz and Raftery ; Dronkers and Härkönen ; Sigle-Rushton et al. Family dynamics often have a strong influence on the way young people see themselves, others and the world, and influence their relationships, behaviours and their wellbeing. However, if the measurements are taken several years apart, it is even more difficult than usual to tell whether the outcome was measured before or during the pre-separation deterioration in well-being and consequently, how the estimated coefficient should be interpreted.

## How to Explain Family Dynamics

However, this is not obvious if the separation followed an increase in parental conflict, because the family environment may have continued to worsen had the parents not separated. Controlling for pre-separation conflict generally leads to a substantial reduction in the effect of parental separation e.
