## Administration and Policy in Mental Health and Mental Health Services Research

The list of essential drugs, which should guide the priorities for making drugs available in hospitals and health centres, is scarcely utilised in drug procurement and distribution and in fact is little known outside central units. On average, how many hours of sleep do you get in a 24 hour period? The Government Analysis Department of GAHEF has responsibility for quality control for all drugs produced, sold and used, in both private and public sectors, but it has no equipment, no qualified staff and only two field inspectors.

## Caregiver Health

Bethesda, MD: National Alliance for Caregiving and Minnetonka, MN: Evercare.

## Health Care

Report from a National Consensus Development Conference Vol. Both mental illness and substance abuse remain stigmatized and there are major gender, racial-ethnic, and economic inequities in access, use and quality of services and supports.

## Mental Health Benefits: State Laws Mandating or Regulating

There are no incentives for sustaining the community participation process in the health sector or to establish these mechanisms anew. Endocrine and metabolic diseases, particularly diabetes. Health Management Policies As a leader in the health sector, the Ministry will provide a national vision of the way forward and develop the ability to inspire the actors in the health sector responsible for delivering services.
