## Barry F. Gritz, MD

But in this time Columbo has found out what MAC means, and about the future, realizing what's really going on he goes with Mayfield to his office to confront him.

## 60 seconds with Macmillan director of nursing Barry Quinn

Mayfield laughs this off and accuses Columbo of just making up theories. James Barry was actually born Margaret Ann Bulky around 1789 in County Cork, Ireland, at a time when women were barred from most formal education, and were certainly not allowed to practice medicine. Finally having enough of him, Columbo angrily slams a care fare down on Mayfield's desk, and dropping all pretenses reveals he believes he is the murderer and warns him that if Doctor Hiedeman dies in the next few days, he will force them to have a complete autopsy, revealing the true cause of his death.

## The Extraordinary Secret Life of Dr. James Barry

Wendy splits her time between Coulee Family Medicine and Coulee City Clinic. While Doctor Hiedeman had been working his whole life on the process, Doctor Mayfield had joined much more recently but was still taking half the credit, and was urging him to release their findings before anyone else released there's so they could claim the glory and money. Barry is board certified in both Internal Medicine and Geriatrics.
