The European Diaries of Richard Cobden 1846

Learn about when to store books laying down vs standing up. This theme dominated Cobden's last years as he attempted to educate the public through his writings, especially his important tract *The Three Panics 1862* and to influence parliament through his vehemently anti-Palmerstonian speeches before his untimely death in April 1865. This campaign was triumphantly successful with the repeal of the Corn Laws in June 1846, with Peel ascribing his own conversion to Cobden's influence.
