History of The Old Railroad With Carnival and Circus Trains

Each trough had a lid with a chain attached. Motive power for the show train was always provided by the railroads.

Circus train

It moved by train, but could leave the trackage to reach more remote towns. The reasoning being that each year the other edition would emerge with a better show than the previous tour, so indeed, both shows would be better.

Carstens

We have three ramps sets of our own 36 ft.

The Circus Moves by Rail

It soon became apparent that a new design was needed for the cars. Circus which called it quits at the end of their 1934 season.

The Circus Moves by Rail by Tom Parkinson

This permitted loading the entire length of the car with stock, no wasted space in the center of the car as there would be if the doors were directly across from each other.
