The value is determined by the dialogue and party member choices made prior to the date. Equipment, tools, supplies and other items which are stored or kept on elevated platforms must be properly secured to prevent them from falling down onto employees and other bystanders in high wind conditions. Understanding the risks can help you prepare for these events.

Safety in High Wind Conditions

In Crisis Core -Final Fantasy VII-, the player can see a blimp that resembles the Highwind in Junon's Airport. Taiwan uses the Beaufort scale with the extension to 17 noted above.

If you, or someone you know, have been a victim of a high wind event, please so we can prevent others from becoming a victim. In 1916, to accommodate the growth of steam power, the descriptions were changed to how the sea, not the sails, behaved and extended to land observations. The risk of destructive weather is so high that forecasters were asking residents to consider sleeping in an interior part of their homes because they may not have enough time to take cover.
