### Xiuqing Ji

Barriers to conducting clinical research in reproductive medicine: China. American Journal of Obstetrics and Gynecology.

### Molecular characterization of ring chromosome 18 by low

Chemistry - A European Journal 2014, 20 50 , 16747-16752. Journal of Colloid and Interface Science 2013, 402 , 146-150. Changes in Plasma Membrane Surface Potential of PC12 Cells as Measured by Kelvin Probe Force Microscopy.

### Haplotype

Open loop Kelvin probe force microscopy with single and multi-frequency excitation.

### Ring Chromosomes in Human Beings

Review of Scientific Instruments 2010, 81 12 , 123705. However, duodenal atresia has not been reported in cases of 1q21. Nanotechnology 2011, 22 7 , 075501.

### Haplotype

Repeat-masker analysis in the present study showed that two breakpoints were inside a LINE or SINE, and that the other two breakpoints were located near a LINE or SINE, indicating a possible association. All the three couples ultimately chose to terminate the pregnancies. More accurate characterizations of r 18 , such as achieved in the present study using NGS methods, will be helpful in the genetic counseling and management of prenatal cases.

### Current attitudes and preconceptions towards expanded carrier screening in the Eastern Chinese reproductive

Protein—excipient interactions: Mechanisms and biophysical characterization applied to protein formulation development. In case 1, neither

breakpoints disrupted any reference genes. Ultra-sensitive direct detection of silver ions via Kelvin probe force microscopy.
