Kripalani, Krishna 1907

This was a man who concluded his letters in the 1930s, when Japan and Germany stood astride the world, when the democracies were ailing and impotent, when India still languished under foreign domination -- and yet he urged his daughter to not take a dismal view of the world: For history teaches us of growth and progress and of the possibility of an infinite advance for man; and life is rich and varied, and though it has many swamps and marshes and muddy places, it has also the great sea, and the mountains, and snow, and glaciers, and wonderful starlight nights especially in gaol! Even though he gives us his perspective on a few of those

events, however ancient they may seem to be, *Glimpses of World History* stands tall way ahead of its contemporaries for being comprehensive and accommodative of most of the events that happened all around the globe in different arcs of the circle of time.
