The pairing of the theoretical enterprise with the subsystem regional implications is innovative, and the concluding chapter to the volume does an admirable job of tying together some of the disparate themes. The conclusion by Paul and Theodore McLauchlin identifies the key question as scholars and policymakers seek a cure: How can vicious cycles of state weakness and insecurity be reversed into virtuous ones? Other topics include: Astaire's career on stage and television as well as in film; his original use of the movie camera; his contribution to the integrated musical; his working methods; and relations with his co-stars and song writers such as Irving Berlin, the Gershwins, and Cole Porter.
