## Race and Ethnicity in the U.S.

According to these opponents, this contradiction makes affirmative action counter-productive.

### About Race

Supreme Court in 2003, though the Court also upheld affirmative action as a practice in a court case held simultaneously that year. There were 37,144,530 non-Hispanic blacks, which comprised 12.

### About Race

About two-in-ten white adults younger than 30 22% say their family talked to them about advantages they might have, compared with about one-in-ten whites ages 30 and older. In addition to their different assessments of the current state of race relations and racial inequality in the United States, Americans across racial and ethnic groups also see race and ethnicity playing out differently in their personal lives.

## Race and Ethnicity

In the United States, multiculturalism is not clearly established in policy at the federal level. Historically first concentrated on and the West Coast, Asian Americans now live across the country, living and working in large numbers in , , , and other major urban centers. What history makes such things possible? As of December 2015, the sampling strata for the new MENA category includes the Census Bureau's working classification of 19 MENA groups, as well as , , , , , , and groups.

## The role of race and ethnicity in Americans' lives

The differences between how Native American and Black identities are defined today versus and political assumptions have been based on different historical circumstances. Among blacks and whites, those younger than 30 see their race as less central to their identity than their older counterparts.
