**American Spirit Sold Smokers on
'Natural.' Now It's Being Sued for
Fraud.**

US PROTECTED VARIETY and can be
sold only as a Class of Certified Seed —
1994 PVPA.

NCpedia

According to Sommers, Santa Fe Natural
was careful not to market to teenagers or
suggest the cigarettes were anything except
a better alternative for people who already
smoked. .

**American Spirit Sold Smokers on
'Natural.' Now It's Being Sued for
Fraud.**

As infested peppers enlarge, the egg
punctures become shallow depressions in
the fruit. Slade made many public
appearances to share the bright-leaf
process with other farmers. To learn more
about the Golden LEAF Foundation, visit

Gold)

He gathered his family and returned to his virtually barren homeplace. NC 297 was released by NC Agricultural Research Service in 1999. Not much about his life up to then suggested he was destined to make his fortune with a cigarette at the leading edge of the artisanal craze.

Tobacco

The chopper was likely from the counter of an old grocery store. Thanks for your piece on the history of the Venable warehouse! Jerome Brooks presents a concise history of tobacco from the days of Sir Walter Raleigh when the plant was considered a novelty, to cultivation for export in the colonial period, to cultivation for domestic use during the antebellum period, to the manufacturing of tobacco products in the late nineteenth century, to the industrialization and commercialization of tobacco in Jerome Brooks presents a concise history of tobacco from the days of Sir Walter Raleigh when the plant was considered a novelty, to cultivation for export in the colonial period, to cultivation for domestic use during the antebellum period, to the manufacturing of tobacco products in the late nineteenth century, to the industrialization and commercialization of tobacco in the twentieth century. In cool weather, however, 5 to 6 weeks may pass from the egg to the adult stage.

THE VENABLE TOBACCO COMPANY

The larvae usually feed at the seed core, but occasionally tunnel in the walls of pods. Damage — The weevils feed externally on foliage, blossom buds, and tender pods. NC 196 is a cytoplasmic male-sterile cms F1 flue-cured tobacco hybrid.

Tobacco

With all electric motors, it takes 20% less electricity to operate than the previous hydraulic machines. Corojo was originally developed and grown by Diego Rodriguez at his farm or vega, Santa Ines del Corojo, and takes its name from the farm.

Green Leaf and Gold: Tobacco in North Carolina by Jerome E Brooks

Green and Gold is easily grown in average, medium moisture, well-drained soils in part shade to full shade. The variety has a moderate number of leaves on a low stalk and plants flower somewhat late. It was developed from a cross involving McNair 926 released as K 326 and a breeding line.

Chrysogonum virginianum (Green and
