Education assessment in the 21st century: New skillsets for a new millennium

External assessments, however, are typically considered the critical instrument for encouraging changes in practice, including changes in teachers' internal assessments.

Draft National Education Policy 2019

However, educational reforms in the 1990s gave more authority and autonomy to municipalities. To order the paper, click.

What We Can Learn from Finland's Successful School Reform

Resource Implications As states and school districts implement new forms of assessment, they face both development and operations costs.

Assessment Reform: Are We Making Progress?

The potential consequences of such behavior should be considered by policymakers.
