### Approaches to Teaching Proust's Fiction and Criticism

The final chapters of the book consider the legacy of Proust's experiments with inestimable worth. Kafka, Proust, and Faulkner wrought their most compelling experimental effects by undermining an earlier Enlightenment project of knowing. This book investigates crises of evaluation in twentieth-century France.

Proust's work is many things at once: a novel of education, a portrait of French society during the Third Republic, a masterful psychological analysis of love, a reflection on homosexuality, an essay in moral and aesthetic theory, and, above all, one of the great literary achievements of the twentieth century. He concludes that Proust revolutionises the idea of metaphor, extending beyond the confines of language to understand the nature of lived, bodily experience. For any reader who has been humbled by the language, the density, or the sheer weight of Marcel Proust's *In Search of Lost Time*, Roger Shattuck is a godsend.

What kinds of things do they remember? Nothing less than an argument for a wholesale revision of the assumptions of modernist studies, Goldstone's book is also an intervention in literary theory. This book is the first study in English to consider these rich interconnections.

### **Approaches To Teaching Proust's Fiction And Criticism by Elyane Dezon**

This Companion provides a broad account of the major features of Marcel Proust's great work *A la recherche du temps perdu* 1913-1927. Furthermore, it serves as an important reference book not just for teachers but also for students, scholars, and anyone interested in gaining a thorough understanding in the study of Proust. Known for her far-reaching examinations of psychoanalysis, literature, and politics, Jacqueline Rose has in recent years turned her attention to the Israel-Palestine conflict, one of the most enduring and apparently intractable conflicts of our time.
