Storm Over Mono: The Mono Lake Battle and the California Water Future

Storm Over Mono awakens a sense of the power we all nurture in our own communities. By the 1920s, so much water was diverted from the Owens Valley that agriculture became difficult. .

Storm Over Mono: The Mono Lake Battle and the California Water Future — High Country News

The belated reward of all this work was policy change in Los Angeles, and even within the Department of Water and Power.

Storm Over Mono The Mono Lake

Battle And The California Water Future 1996 Cloth With Dustjacket PDF Book

Eaton and Mulholland realized that the Owens Valley had a large amount of runoff from the , and a gravity-fed could deliver the Owens water to Los Angeles. Under these conditions, the region faced severe water scarcity so streamflow was immediately delivered to urban and agricultural water users, while reservoirs remained nearly empty. They took on not only Los Angeles but the entire state government and a whole way of thinking about water.

Storm over Mono

Beyond Chinatown: The Metropolitan Water District, Growth, and the Environment in Southern California. The City of Los Angeles continued to purchase private land holdings and their water rights to meet the increasing demands.
