Polymer banknotes: guidance for businesses

But the more general view of the subject is still more satisfactory. The Secretary entertains all the doubts which prevail concerning the utility of such companies; but he cannot fashion to his own mind a reason to induce a doubt, that there is a constitutional authority in the United States to establish them. A nation is threatened with a war, large sums are wanted on a sudden to make the requisite preparations.

Central bank

Under the 1844 Act, was institutionalized in Britain, creating a ratio between the gold reserves held by the and the notes that the Bank could issue.

Andrew Jackson, Banks, and the Panic of 1837

The most recent bank model was introduced together with the , and involves coordination of the European national banks, which continue to manage their respective economies separately in all respects other than currency exchange and base interest rates.

First Report on Public Credit

Remini, Henry Clay: Statesman for the Union, p.
