Southport

I fired up the lift pump, let the system fill with water, checked for discharge water, and then fired up the pressure pump.

The Winds of Time — Robert Paterson

Transmission is an on-going pain in the rump. They stopped giving that to her altogether, and stuck with the carboplatium.

Winds of Time (After Cilmeri #1.5) by Sarah Woodbury

I went to Walmart because, as it turns out, some engineer is sitting there getting kickbacks on battery changes in the Dodge Journey. On the bright side, we can now make water using a generator. Sometimes things you expect to break never break.

Winds of Time (After Cilmeri #1.5) by Sarah Woodbury

Based on his words, I created musical elements from the various words, phrases and metaphors, especially those related to wind and water: watching the waves rising, falling, swelling, surging, and being driven by the winds. Pressure was high almost 80 psi at start, but as temp increased the oil pressure dropped to normal.

Winds of Time (After Cilmeri #1.5) by Sarah Woodbury

I knew that the windage would be high and the birnini was mounted under the solar panels, and the posts holding the solar up went THROUGH the bimini. I do enough of that writing and reading.

Winds of Time by Zoe Matthews

No matter what happens in the next few weeks, we will be making our trip to the Bahamas somehow. The Winds of Time is largely autobiographical, detailing her life during the Great Depression and her travels through Arkansas, California, Nevada, New Mexico, and Colorado. Some folks, they just have it made with lots of cash in the bank, drawing interest from a previous life of proper investing or rental incomes.

Winds of Time

I really want to grasp that stuff.
