## **Human Nature and Happiness**

Another important point to notice is that the distribution of self-reported life satisfaction in Latin America is high across the board—it is consistently to the right of other regions with roughly comparable income levels, such as Central and Eastern Europe. Here are the two clearest downsides.

Interestingly, this chart also shows that while there are some countries where the perceived sense of freedom is high but average life satisfaction is low e. A fully virtuous person is described as achieving eudaimonia, and therefore would be undeniably happy.

#### Human dignity and happiness

I say this to say that whether intentional or not, others will always have an opinion. Up to the support system who helps keep you afloat and vice versa. More importantly, I hope you see your growth.

## 17 Uplifting Prayers to Increase Your Happiness

And this really is bad news because there is little we can do about it, short of changing human nature.
