Conservation social science: Understanding and integrating human dimensions to improve conservation

Wildlife corridors provide many benefits to wildlife. It has long been claimed that a better understanding of human or social dimensions of environmental issues will improve conservation. Many of the activities could be simplified into short discussion topic, or expanded into a course-long project.

Guide to Discussion Skills

Activity Affirmation Mingle Source: Objective To practice giving positive feedback and to have participants leave the workshop feeling energized.

NATURE CONSERVATION

Some identities are things people can see easily like race or assumed gender, while other identities are internalized and are not always easy to see like a disability, socioeconomic status or education level.

SESMAD

Leading a discussion You may be in a seminar group that requires you to lead a group discussion, or lead a discussion after an oral presentation.

A guide to ontology, epistemology, and philosophical perspectives for interdisciplinary researchers

Some of these decisions are based, not always knowingly, on some key philosophical principles, as outlined in the figure below. A child that cannot conserve will answer that they now weight a different amount, while a child that can conserve will recognize that shape does not affect weight and respond that they weigh the same amount.

SESMAD

Those interested in this type of work may be interested in a career in social work, facilitation, advocacy or sociology.
