Foundations in Clinical Psychology MSc

The section of the book on complex correlation was also moved to Chapter 6 and the section on quasi-experiments was moved from Chapter 6 to its own chapter Chapter 8. Chapter 6 was also reorganized by moving sections describing correlation coefficients from Chapters 2 and 12 to Chapter 6. The original text is available here: This adaptation constitutes the second American edition, and incorporates the second Canadian edition by Rajiv S.

AP Psychology

Start dates The course starts in September. More specifically, the overall model section was moved from Chapter 1 to Chapter 2, new sections were added to Chapter 1 on methods of knowing and goals of science, and a link on the replication crisis in psychology was added to Chapter 1. Chapter 6 was further expanded to describe cross-sectional studies, partial correlation, simple regression, the use of regression to make predictions, case studies, participant observation, disguised and undisguised observation, and structured observation.

AP Psychology

The MSc comprises taught modules and a supervised project and dissertation.
